

New and Featured Titles from Cambridge Scholars

This December, join Cambridge Scholars Publishing in marking the Winter Solstice in the Northern Hemisphere. Marking the longest night and shortest day of the year, on the 21st of December the pendulum of light will begin to swing back the other way, as the nights begin again to get shorter and the days start to stretch out.

To celebrate the Solstice, we will be offering a **50% discount** on some of our most recent titles connected to the Winter and the Northern Hemisphere, from titles on education in Iceland to stories of Arctic offshore engineering. To read more, please [click here](#).

Our December discount campaigns, with a time-limited discount of **up to 50%**, include:

The Editorial Advisory Board's 'Recommended Reads' – Our last 'Recommended Read' of the year has been chosen by Jean-d'Amour Twibanire, a new book by Richard Littleton Guerrant entitled *Evolution of Evolution: The Survival Value of Caring*. A passionate plea for a recognition of the role of care in the theory of evolution, we are offering a **50% discount** on Jean-d'Amour's choice. Please [click here](#) to see more.

Introductory Readings in Neuroscience – As part of our expansion into the Life Sciences, Cambridge Scholars has a burgeoning collection of books in the important field of Neuroscience. We are offering a **20% discount** on three of our latest introductory readings in this area as a taste of what is to come in the next few months. Please [click here](#) to read more.

Stocking Fillers – To help us all get into the Christmas spirit, our editors have picked out four of our newest paperbacks to receive a one-off **20% discount**. To purchase that last minute gift for a friend or colleague, please [click here](#).

Featured Review – Lastly, we are delighted to share a fantastic new review of *Rejuvenating Medical Education: Seeking Help from Homer*, written by Neil Vickers of King's College London. Published in the leading journal *Medical History*, Vickers praised the book as providing "much-needed food for thought" for scholars in both the Health and Social Sciences. Please [click here](#) to read more.

Happy reading!
